<td>30x90, 30x120, 30x180 cm</td>
<td>Strip1→Strip3→Strip2→Strip4</td>
</tr>
<tr>
<td>Octobox</td>
<td>90cm, 120, 150, 200 cm</td>
<td></td>
</tr>
</tbody>
</table>

3. Installation of the inner diffuser

Attach the inner diffuser with the buttons to the cover.

4. Installation of the front diffuser

- Type: recessed front
  - Take the front diffuser and spread it to the corners of the softbox.
  - Now attach the rest of the front diffuser to the sides.

- Type: shallow front
  - Pull the front diffuser completely over the softbox.
  - Attach the hook tape at the inside of the diffuser to the loop tape at the outside of the softbox cover.

5. Connection of flash units

Attach the softbox to the flash unit.

6. Fastening of the hook-and-loop tape

Please close the hook-and-loop fastener at the back of the softbox to block the light.

7. Please note:

- Please keep the softbox and diffusers clean.
- Do not leave the halogen lamp on and unattended for longer periods of time.
- With active cooling: max. 300 W modeling light for the 30x40 box, all other models max. 650 W possible.
